2. If not available above, search the Library Catalog by the title of the journal (do not search by the title of the article).

If you cannot find a journal in the Catalog, try searching using this option, found on the front page of the library's website. This site provides links to online journals and newspapers to which we have access (purchased through third parties). Additionally, selecting a “subject category” on the same pages allows for browsing through lists of available journals by subject.
