

## IngentaConnect

To set up an account with **IngentaConnect**, please use the following directions:

1. Go to <http://www.ingentaconnect.com/>
2. On the far right side of the screen, choose the option “**Need to register? Sign up here.**”
3. Fill out the form that appears on the next screen under “**Personal Registration.**” You only have to fill in the fields marked with an asterisk; you might not want to give Ingenta too much personal information.

At the bottom of the form, you will need to create a user name and password, and “agree to Ingenta’s terms and conditions.” When finished with the above, click “**Register.**”

4. From the next screen, you should be able to set up your “**New Issue alerts**” (up to 50 journals you can select for receiving--by e-mail--tables of contents information for each new issue published).

You should also be able to set up your “**Search alerts**” (up to 25 searches that you can automatically have run--on a periodic basis--against the Ingenta database with the results sent to you by e-mail).

The Ingenta database indexes over 31,000 publications and includes over 23 million articles, chapters, and more.

If these choices do not appear on that screen, look for the option “**Manage My Ingenta**” (often on the right side of the screen). This option should also get you to New Issue alerts, Search alerts, and more.

Leave the option “**Payment details**” blank. If you have questions about that option, please let me know (**Kevin Engel -- engelk@grinnell.edu**).

5. Once your account has been established, you can “**Sign out**” using the option on the right side of the screen.
